

# Eco Friendly Label Solutions

The right label choice can make packaging more recyclable, reduce contamination, and support a true circular economy.

Make your packaging work for the planet – choose recyclable label materials.

## Recycled/Recyclable Materials

### Film Face

- 30% Recycled PP & PE

### Paper Face

- Recycled Semi-gloss Paper
- 100% Recycled Uncoated Laser Paper

### Release Liners

- 15% Recycled Glassine
- 30% - 90% rPET Liners

Our waste collection and recycling matrix journey is officially underway

## Reduce/Lightweight Materials

### Film Face

- PP Films
- 40 mic - PP Clear, White, Metalised and Solid

### Paper Face

- Coated Paper
- Thermal Papers (58-62 g)

### Release Liners

- 19 - 23 mic PET
- 40 - 45 g Glassine

## Reuse/Sustainable Adhesive Solutions

- Bio-Based Content Hotmelt Adhesives
- Wash-Off Adhesives
